To Whom It May Concern

It is with complete confidence and pleasure that I endorse Certificate 3 & 4 for Christian Counselling written by Sylvia Fraser.

I have found this course to have been 'life-changing' for me on a personal level; my relationship with my Heavenly Father, my wife, my children and friends have all benefited immensely from the revelation and understanding I have received.

In my pastoral role, it has equipped me with excellent tools in communication and comprehension enabling me to deal with numerous situations with a 'win-win' outcome. With a new confidence to lead and empower others into their own avenues of gifting and expertise, I am finding great fulfilment.

I believe. this course is of the highest value in teaching people the art of communication and counselling, equipping them to function and lead confidently within the church and within the wider community. Christlikeness in action!

The content of this course is of such a high level, that advancement to diploma level is imminent.

Yours sincerely

Ps Colin Patterson
